

Born: 29/09/1998 in Beni Chebana

Address: Ain Arnat – Setif

Nationality: Algerian

Phone: +213 7.76.54.80.12

Email address: nawalaitoukheddi273@gmail.com

## LEVEL OF EDUCATION / DIPLOMAS

1. I obtained a Bachelor's degree in 2017, Scientific, with an overall average of 13.37.
2. I obtained Bachelor's degree in 2018, Scientific, with an overall average of 14.70.
3. 2020: Bachelor's degree in Biology (Microbiology), Specialty: Applied Microbiology.
4. 2022: Master2 in Biology, Specialty: Applied Microbiology with an overall average of 17.77.
5. 2023: I passed the PhD competition and ranked fifth out of 600 Applicants.

## QUALIFICATION

### *1/ Professional experience and skills / internships:*

1. I did a research internship on cancer cell culture and molecular biology at the IBS research Centre in Granada, Spain
2. I did a two-year internship in a medical biology laboratory.
3. I did a Master 2 research **entitled** Next generation sequencing of SARS-COV-2 and variant surveillance.
4. Proficient in Microsoft Office software (Word, Excel, PowerPoint).

### *2/Languages:*

1. Arabic.
2. French.
3. English.

## MOTIVATION AND PURPOSE

- Holder of a Master's degree in Applied Microbiology and currently a PhD candidate, highly motivated by innovative scientific research.
- Particular interest in anticancer phytotherapy, especially for colon and breast cancers.
- Passionate about molecular biology and its application in understanding cellular mechanisms.
- Committed to developing natural solutions derived from microbiology and medicinal plants.
- Objective: to contribute to scientific advances linking medical microbiology and food microbiology for the benefit of human health.
